Township of Tay Grandview Beach and Paradise Point Water Servicing Project Consultation

Background: The Township of Tay undertook a Class Environmental Assessment (Class EA) to evaluate the need for and feasibility of improving water and wastewater services for all properties in the Grandview Beach and Paradise Point community. The EA study area is shown on the map.

The Class EA assessment recommended the expansion of the existing municipal water and wastewater systems in Port McNicoll to the community. At this time, Council has decided to proceed with detailed design of the year-round water system only. The decision to proceed with year-round water only was made to take advantage of funding opportunities, implement part of the preferred alternative identified by the Class EA, and address immediate water quality issues in the community.

At this time, it is expected that external funding and Township reserves will be adequate to cover most of the project costs including installing the new year-round water system in the road right-of-way to the property line. A report was presented to the Committee of All Council March 8, 2017 and ratified by Council on March 22, 2017 with various options for allocating the remaining costs to property owners and timelines for connection. Consideration will be given to properties currently serviced by the seasonal system, un-serviced properties, and vacant lots.

Public Consultation: You are invited to a public information center to provide input and learn more about the project status:

Date: April 22, 2017

Time: 10:00 a.m. - 1:00 p.m., Presentation at 11:00 a.m.

Place: Port McNicoll Community Centre (560 Seventh Ave, Port McNicoll)
