Joanne Sanders
Director of Finance/ Treasurer
Township of Tay
450 Park Street
Victoria Harbour, Ontario L4K 2A0

Dear Ms. Sanders,

**Re: Township of Tay
2018 Development Charges (DC) Background Study & By-law -
Final Report**

We are pleased to submit the 2018 DC Background Study and By-Law. This report and by-law present the development charges for the period February 6, 2019 to February 5, 2024 and the basis for the calculations in accordance with the requirements of the Development Charges Act 1997 (DCA) and O.Reg.82/98.

Please do not hesitate to call if you have any questions.

Respectfully Submitted by,

DFA Infrastructure International Inc.

Derek Ali, MBA, P.Eng.
President

Executive Summary

ES-1 Purpose

This document is the DC Background Study and its main purpose is to:

- Document the Development Charge policies and calculations of the new rates that inform the preparation of the new DC By-law;
- Present the proposed new DC By-Law to replace the existing by-law upon its expiry on February 12, 2019; and
- Meet the requirements of the DCA and O.Reg.82/98.

ES-2 Services Included

The services identified in Table ES1 were covered in this development charges background study and proposed new by-law based on the eligibility requirement of the Development Charges Act (DCA) and the existing By-law 51-13.

Table ES-1: Eligible Services

Services Included in DC Calculations	
<ul style="list-style-type: none">• Fire Services<ul style="list-style-type: none">- Fire Vehicles- Buildings, Land & Furnishings- Equipment• Roads & Related Services<ul style="list-style-type: none">- Road Works- Related Studies• Park & Recreation Services<ul style="list-style-type: none">- Indoor Recreation- Outdoor Recreation	<ul style="list-style-type: none">• Library Services<ul style="list-style-type: none">- Facilities- Vehicles- Equipment• Public Works<ul style="list-style-type: none">- Public Works Facilities- Public Works Fleet• Wastewater Services<ul style="list-style-type: none">- Treatment- Collection• Water Services<ul style="list-style-type: none">- Water Supply & Treatment- Water Storage- Water Distribution• General Government<ul style="list-style-type: none">- Growth Related Studies

ES-3 Population and Employment Growth

The population and employment growth are summarized in Table ES-2 and Table ES-3. These estimates were used to calculate the service level caps, allocating costs between residential and non-residential growth and calculating the rates.

The residential population growth over the 10-year period is projected to be 703 and 914 to 2031. Residential growth represents approximately 88% of total growth over the 10-year period and to 2031. The growth in number of units is 437 over the next 10 years and 569 to 2031. The population growth in new units is 1032 and 1342 by 2028 and 2031 respectively, based on the occupancy (persons per unit – PPU) shown in Table ES-2.

Table ES-2: Population Growth in New Dwelling Units

Dwelling Type	Persons Per Unit (PPU) ¹	10-Year Development Charges Study Period (2019-2028)		Beyond 10 Years (2029-2031)		Total to Build Out (2019-2031)	
		No. of Units	Population Growth	No. of Units	Population Growth	No. of Units	Population Growth
Single Detached & Semi Detached	2.40	394	945	118	283	512	1,228
Multiples	2.00	44	87	13	26	57	114
Apartments	1.90	-	-	-	-	-	-
Population Increase in New Units		437	1,032	131	310	569	1,342

Table ES-3 shows the employment growth projections over the same periods are 98 for the first 10 years and 127 to 2031. These equate to an additional 6,937 m² of Gross Floor Area (GFA) in the first 10 years and 9,410 m² to build out.

The growth in new units in the settlement (urban) areas represents approximately 95% of the municipal dwelling unit growth. This equates to 415 units by 2028 and 540 by 2031 (build out). The corresponding population increases (in new units) are 980 and 1,275

The employment growth estimate by 2031 is 121 which is equivalent to a GFA of approximately 8,939 m². These urban area projections form the basis for the water and wastewater charges.

Table ES-3: Employment Growth – Township Wide

Employment Sector	10-Year Development Charges Study Period (2019-2028)	Beyond 10 Years (2029-2031)	Total to Build Out (2019-2031)	% of Total to Build Out (2019-2031)
<u>Population</u>				
Employment Land Employment	21	6	27	21%
Population Related Employment (PRE)	29	9	38	30%
Rural	49	15	63	49%
Total Employment Population Increase	98	29	127	100%
<u>¹ Gross Floor Area (m²)</u>				
Employment Land Employment	1,459	438	1,896	20%
Population Related Employment (PRE)	2,063	619	2,682	29%
Rural	3,451	1,380	4,831	51%
Total GFA Increase (m²)	6,973	2,437	9,410	100%

ES-4 Recoverable Growth Related Capital Needs

The capital cost eligible for recovery through the development charges after deductions and adjustments and their respective allocations to the residential and non-residential sectors are summarized by service in Table ES-4.

Table ES-4: Allocation of Costs to Residential & Non-Residential

Service	Net Capital Needs to be Recovered	Residential Share	Non-Residential Share	Basis for Allocation
Township Wide Services				
General Government	\$ 177,527	\$ 162,132	\$ 15,395	% of Population and Employment Growth
Library	\$ 213,775	\$ 213,775	\$ -	100% residential
Fire	\$ 548,527	\$ 500,960	\$ 47,567	% of Population and Employment Growth
Parks and Recreation	\$ 330,688	\$ 330,688	\$ -	100% residential
Public Works	\$ 292,256	\$ 266,913	\$ 25,344	% of Population and Employment Growth
Roads and Related	\$ 983,429	\$ 898,149	\$ 85,280	% of Population and Employment Growth
Total Township Wide Services	\$ 2,546,201	\$ 2,372,616	\$ 173,586	
Water and Wastewater Services				
Water	\$ 2,516,952	\$ 2,288,244	\$ 228,707	% of Population and Employment Growth
Wastewater	\$ 4,428,197	\$ 4,025,820	\$ 402,376	% of Population and Employment Growth
Total Water and Wastewater Services	\$ 6,945,149	\$ 6,314,065	\$ 631,084	
Total Adjustments	\$ 9,491,350	\$ 8,686,681	\$ 804,669	

ES-4 Calculated Development Charges

The calculated residential development charges by type of dwelling unit and the non-residential development charges per square metre are presented in Table ES-5. The charges were based on:

- Occupancy rates (persons per unit - PPU) of 2.40, 2.00, 1.9 and 1.5 for single & semi-detached, multiples, apartments - 2 or more bedrooms, apartments - bachelor and 1 bedroom respectively.
- Applying the charges for water and wastewater to development within the settlement areas only.
- All charges will be subject to annual indexing in accordance with O.Reg.82/98 Section 7.

Table ES-5: Calculated Development Charges

Service	Residential Charge By Dwelling Type				Non-Residential Charge (per square metre of Gross floor area)
	Single Detached Dwellings and Semi-Detached Dwellings	Other Multiples	Apartment Units - 2 or more Bedrooms	Apartment Units - Bachelor and 1 bedroom	
General Government	\$ 370	\$ 308	\$ 293	\$ 231	\$ 2.16
Library	\$ 502	\$ 418	\$ 397	\$ 313	\$ -
Fire	\$ 1,076	\$ 897	\$ 852	\$ 673	\$ 6.30
Parks & Recreation	\$ 1,154	\$ 961	\$ 913	\$ 721	\$ -
Public Works	\$ 609	\$ 508	\$ 482	\$ 381	\$ 3.57
Roads and Related	\$ 2,067	\$ 1,722	\$ 1,636	\$ 1,292	\$ 12.10
Sub-total Township Wide Services	\$ 5,777	\$ 4,814	\$ 4,573	\$ 3,610	\$ 24.14
Water	\$ 4,367	\$ 3,639	\$ 3,457	\$ 2,729	\$ 25.93
Wastewater	\$ 7,769	\$ 6,474	\$ 6,150	\$ 4,855	\$ 46.13
Sub-total for Water and Wastewater	\$ 12,135	\$ 10,113	\$ 9,607	\$ 7,585	\$ 72.06
TOTAL CHARGE PER FULLY SERVICED UNIT	\$ 17,912	\$ 14,927	\$ 14,180	\$ 11,195	\$ 96.20

ES-5 Comparison with Existing 2018 Charges

The current 2018 and proposed residential and non-residential development charges are compared in Table ES-6. Table ES-6 shows a decrease in the proposed Township-wide charges for single family and other multiple dwelling units as well as the non-residential charges, with increases in the Township-wide charges in the large and small apartment residential categories. Proposed residential and non-residential charges for water and wastewater services will increase over the current 2018 charges.

Table ES-6: Proposed vs. 2018 Development Charges

Service	Residential Charge By Dwelling Type				Non-Residential Charge
	Single/Semi-Detached Dwelling	Other Multiples	Apartments Units - 2 or more Bedrooms	Apartments-Bachelor and 1 bedroom	(per m 2 of Gross Floor Area)
CURRENT (2018) CHARGES					
Total Township Wide Services	\$ 6,309	\$ 5,409	\$ 4,508	\$ 3,381	\$ 27.60
Total Water and Wastewater Services	\$ 10,903	\$ 9,345	\$ 7,789	\$ 5,840	\$ 60.56
GRAND TOTAL TOWNSHIP WIDE CHARGE	\$ 17,212	\$ 14,754	\$ 12,297	\$ 9,221	\$ 88.16
PROPOSED CHARGES					
Total Township Wide Services	\$ 5,777	\$ 4,814	\$ 4,573	\$ 3,610	\$ 24.14
Total Water and Wastewater Services	\$ 12,135	\$ 10,113	\$ 9,607	\$ 7,585	\$ 72.06
GRAND TOTAL TOWNSHIP WIDE CHARGE	\$ 17,912	\$ 14,927	\$ 14,180	\$ 11,195	\$ 96.20
DIFFERENCE					
Total Township Wide Services	\$ (532)	\$ (595)	\$ 65	\$ 229	\$ (3.46)
Total Water and Wastewater Services	\$ 1,232	\$ 768	\$ 1,818	\$ 1,745	\$ 11.50
GRAND TOTAL TOWNSHIP WIDE CHARGE	\$ 700	\$ 173	\$ 1,883	\$ 1,974	\$ 8.04

ES-6 Recommendations

The following are the recommendations are presented for consideration by the Township.

1. That this DRAFT Development Charges Background Study and By-Law be posted on the Municipality's website effective immediately for public review in accordance with the requirements of the Development Charges Act, 1997 Section 10 (4).
2. That following approval of the by-law, the required notices are issued to the public and stakeholders and a pamphlet is prepared, in accordance with O.Reg.82/98 Section and O.Reg. 82/98 Section 14 respectively.
3. That the growth-related capital projects forecast identified in this Development Charges Background Study be approved by Council as a statement of its intention to meet the increased need for service due to growth, as required under O.Reg.82/98 Section 3.
4. That any excess capacity created as a result of undertaking the growth-related capital projects identified in this background study would be paid for by development charges and therefore deemed to be "committed" in accordance with the requirements of O.Reg.82/98 Section (5).

1 Introduction

1.1 Background

The Township of Tay (Township) is a lower tier municipality within Simcoe County with a population of approximately 10,000 residents. It provides a wide range of services to its residents and businesses for which development charges are currently collected. These services include:

- | | |
|----------------------|-----------------------|
| ▪ Fire Services | ▪ Library Services |
| ▪ Roads and Related | ▪ General Government |
| ▪ Public Works | ▪ Wastewater Services |
| ▪ Parks & Recreation | ▪ Water Services |

The extent to which these services are delivered, and the costs depend not only on the existing residents and businesses but also on the anticipated growth. The recovery of the capital costs of development driven service expansions is governed by the Development Charges Act (1997) (DCA) and Ontario Regulation 82/98 (O.Reg. 82/98). These were amended by the Smart Growth for Our Communities Act (2015) (Bill 73) which became effective on January 1, 2016. Changes include the requirement for municipalities to have approved Asset Management Plans, increased lead time for public review of DC Studies prior to final approval and the need for consideration of the use of area specific charges. The calculation and implementation of development charges (DCs) including the requirement for municipalities to prepare DC Background Studies and pass by-laws setting out the DCs to be collected from developers are prescribed by the DCA and O.Reg. 82/98.

The Township's current DC By-Law No. 2014-01 will expire on February 12, 2019. It needs to be updated through the preparation of a new Background DC Study and By-law and become effective by February 11, 2019.

1.2 Purpose of this Document

This document is the DC Background Study and its main purpose is to:

- Document the Development Charge policies and calculations of the new rates that inform the preparation of the new DC By-law;
- Present the new DC By-Law; and
- Meet the requirements of the DCA and O.Reg.82/98.

2 Study Methodology

2.1 Steps in Calculating Development Charges

The methodology for this study very closely followed the methodology prescribed by the DCA particularly Section 5(1) and O.Reg. 82/98. The steps are outlined in Table 2-1.

Table 2-1: Study Methodology

DC Background Study Steps	
Step 1: Review Development Charges Act, 1997 (DCA) Requirements (See Section 3)	
<ul style="list-style-type: none"> The DCA and O.Reg.82/98 were reviewed to confirm requirements and their application to the Township's situation 	
Step 2: Develop Policy Framework (See Section 4)	
<ul style="list-style-type: none"> The existing By-law No.2014-01 was reviewed to identify existing policies, rules and charges set by the Township. Input received from Council and senior staff on relevant policies and services to be included in the DC calculations indicated no changes from the current by-law A presentation was delivered to Council on September 26, 2018 outlining requirements of the DCA and O.Reg.82/98 and policy items for consideration by Council 	
Step 3: Identify Services Eligible for DCs (See Section 5)	
<p>The services identified for preliminary consideration for inclusion in the study are listed below. These meet the eligibility requirements of O.Reg.82/98 Section 2.1:</p>	
<ul style="list-style-type: none"> General Government <ul style="list-style-type: none"> Growth Related Studies Fire Services <ul style="list-style-type: none"> Fire Vehicles Buildings, Land & Furnishings Equipment Roads & Related Services <ul style="list-style-type: none"> Road Works Related Studies Park & Recreation Services <ul style="list-style-type: none"> Indoor Recreation Outdoor Recreation 	<ul style="list-style-type: none"> Library Services <ul style="list-style-type: none"> Facilities Vehicles Equipment Public Works <ul style="list-style-type: none"> Public Works Facilities Public Works Fleet Wastewater Services <ul style="list-style-type: none"> Treatment Collection Water Services <ul style="list-style-type: none"> Water Supply & Treatment Water Storage Water Distribution

DC Background Study Steps

Step 4: Determine Population & Employment Growth (See Section 6)

- The growth-related data and information were reviewed
- Residential population growth was determined for the 10-year period 2019 – 2028 inclusive and the build out period 2028 – 2031 inclusive (most recent build out period approved by Council). The projections considered the decline in population as to identify the “net” growth
- Household growth was determined for the 10-year period 2019 – 2028 inclusive and the build out period 2029 – 2031 inclusive
- The number of persons per household (PPU) was determined for each type of household using the 2016 Statistics Canada Census data.
- Employment population growth was determined for the 10-year period 2019 – 2028 inclusive and the build out period 2029 – 2031 inclusive
- Employment population growth was converted to non-residential gross floor area (GFA)
- The location of new growth was assumed to be across the Township but focused in the urban areas (settlement areas) as noted in the Tay Municipal Residential Land Budget 2017.

Step 5: Determine Historical Service Levels (See Section 7)

- The services for which historical service levels are required were identified. Historical service level calculations for water and wastewater were not required as these services are governed by other legislation.
- The historical population served by each service was determined
- The quantity (floor area, number of equipment, etc.) and quality (cost per square metre, per unit, etc.) of services for each year over the historical 10 years were determined.
- The average service level (cost per population) for the historical 10-year period 2009 – 2018 inclusive was determined

Step 6: Determine the Net Capital Costs to be Recovered from Development Charges (See Section 8)

Step 6.1: Identify Growth Related Capital Needs (Gross)

- Current available servicing studies were reviewed to identify growth related capital needs.
- The forecast period used for projecting capital costs was 10 years (2019-2028) except for water, wastewater, roads and fire protection. These costs were projected over a longer term (2018 to 2031) in accordance with the DCA Section 5(1)4.
- IN cases where debt was incurred to pay for the projects the amount of principal and debt to be repaid within the study period for the respective service was included. This is particularly relevant to Water and Wastewater where the benefit from the debt financed project goes well beyond 2031.
- Input from staff was obtained on growth related capital projects
- The growth-related capital forecasts were developed for each service for the period 2019-2028 inclusive showing the gross capital cost of each project.
- The post period capacities identified in the 2014 background study were brought forward to this study and included in the capital requirements.

DC Background Study Steps

Step 6.2: Undertake Statutory & Other Deductions

- Any approved grants or third-party funding that are expected to be received to reduce the cost of each project were deducted from the gross cost
- Deduct the statutory 10% of the remaining cost after deducting grants, third party funding and benefit to existing population. The 10% deduction does not apply to Water, Wastewater, Fire and Roads Services pursuant to the DCA Section 5(5)
- The portion of each project that will benefit the existing population was determined and deducted from the net cost after grants and third-party funding were deducted

Step 6.3: Further Adjustments after Deductions

- The DCA Section 5(1) does not define uncommitted excess capacity but requires that it be deducted from the increased need for services to accommodate the new growth.
- Any credits related to existing front-end agreements were identified and added to the capital projections in accordance with O.Reg. 82/98 Section 5.
- The deduction of uncommitted excess capacity was deemed to have been done during the planning stages for services when capacity was assessed to determine the need for capacity expansions hence the new projects.
- Any eligible debt or reserve deficits were identified and added to the to the capital forecasts
- The remaining amounts were adjusted by any uncommitted reserve balances because these funds are available for use to offset the growth-related costs.

Step 6.4: Apply Service Level Caps

- The historical average service level (Cost per Population) was multiplied by the projected population growth for the forecast period to obtain the maximum amount (cap) that could be recovered through the DCs.
- The lower of the service level cap or the net capital cost for the forecast period was used as the amount to be recovered through DCs.

Step 7: Calculate the Residential and Non-Residential Development Charges (See Section 9)

Step 7.1: Allocate the Net Capital Cost of each Service to Residential and Non-Residential

- The basis for allocating costs to the residential and non-residential sectors was identified. Residential growth allocation was based on residential population as a percentage of the total residential plus employment population growth over the applicable period. The allocation to non-residential growth was the remainder.
- Parks and Recreation services were deemed 100% benefit of the residential sector.

DC Background Study Steps

Step 7.2: Calculate the Residential and Non-Residential Unadjusted Rates

- The cost allocated to the residential sector for each service was divided by the residential population growth over the applicable period to arrive at a cost per residential population (cost per capita). The result was the unadjusted residential development charge per capita
- The cost allocated to the non-residential sector for each service was divided by the employment population growth over the applicable period to arrive at a cost per employment population.

The cost per employment population was converted to cost per square metre of Gross Floor Area (GFA) based on an average conversion of 71.13 m² per employment population. The result was the unadjusted non-residential rate per square metre.

Step 7.3: Undertake Cash Flow Analyses

- A cash flow analysis was completed for each service using the projected opening reserve balance, anticipated expenditures, anticipated revenues based on the calculated development charges, interest earned on positive annual balances and interest accrued on negative annual balances over the 10-year period or 13-year period. Expenditures, revenues and rates were inflated over the period.
- The residential and non-residential development charges (cost per population for residential and cost per square metre for non-residential) for each service were adjusted to obtain a net zero balance for each reserve at the end of the 10th or 13th year. These became the “adjusted” development charge rates.

Step 7.4: Calculate Proposed Development Charges

- The adjusted rate per population was converted to a charge per unit for single detached dwelling units, multiple dwelling units and apartments using the appropriate persons per unit (PPU).
- The adjusted rate per square metre was deemed the proposed non-residential development charges rate for the by-law.

Step 8: Proposed Development Charges Comparison (See Section 10)

- The proposed development charges were compared with the existing charges.
- The proposed development charges were compared with those in other jurisdictions

DC Background Study Steps

Step 9: Assess Long-term Capital & Operating Cost Impacts (See Section 11)

- The long-term increase to operating costs of each service resulting from growth related infrastructure was estimated. An operating cost per capita was calculated for each service from the Township's most recent Financial Information Return. These rates were applied to projected growth in estimating operating costs.
- The life expectancy for each asset to be funded by the development charges was calculated based on each asset's estimated useful life.
- Annuities were calculated for the replacement of the growth-related assets and funding
- The increases to capital costs of each service as a result of implementing the growth-related infrastructure were estimated. This was based on the portion of capital costs not funded by DCs but funded from other sources
- The future replacement cost of each asset was determined

Step 10: Prepare Draft Background Study & Draft By-Law (See Section 12)

- The Background Study (this document) was prepared in accordance with the requirements of the DCA Section (10) and O.Reg.82/98 Section (8)
- The By-Law (proposed) was prepared in accordance with the DCA Section (6) and based on the rules included in the existing by-law

Step 11: Undertake Stakeholder Consultation (See Section 13)

- The Draft Background Study and Draft By-law was made available for public/ stakeholder review at least 60 days prior to approval of the by-law.
- Public notice for a meeting to be held (Date TBD) to obtain public/ stakeholder comments on the Draft Background Study and Draft By-law was issued at least 20 days in advance of the meeting (Date TBD)
- The Draft Background Study and Draft By-law will be made available to the public/ stakeholders at least 2 weeks prior to the public meeting
- A Stakeholder Meeting will be held (Date TBD) at (Location TBD)

Step 12: Approval & Implementation of Final Background Study and Final By-Law (See Section 14)

- Comments received from stakeholders will be considered and necessary changes made to the Draft Background Study and Draft By-law.
- Approval by Council will be sought in time for the new by-law to become effective by February 11, 2019
- The Final Background Study and Final By-law will be prepared
- Notice of approval of DC By-law will be given within 20 days of final approval by Council.
- A pamphlet will be prepared (within 60 days of approval of the by-law) containing the items noted in O.Reg.82/98 Section 14(1) and make available to the public.

2.1 Data Sources

The primary sources of data used to prepare this Background Study are listed in Table 2-2. In addition, information was also developed from discussions with and input from the Township's staff, as required.

Table 2-2: Background Study Data Sources

Item	Data Source
Services to be Included	<ul style="list-style-type: none"> By-Law No. 2014-01 Council Direction Input from staff

3 Step1: Development Charges Act 1997 (DCA) Requirements

3.1 General Requirements

In Ontario the governing legislation for development charges is the Development Charges Act (1997), O.Reg. 82/98 and O.Reg.192/07. The latter regulation applies only to the Toronto-York Subway Station and is not relevant to this background study.

The DCA Section 2 (1) allows municipalities to establish by-laws to impose development charges “against land to pay for increased capital costs required because of increased needs for services arising from development of the area to which the by-law applies”. In accordance with the DCA Section 2(2),

“A development charge may be imposed only for development that requires,

- (a) the passing of a zoning by-law or of an amendment to a zoning by-law under section 34 of the Planning Act;*
- (b) the approval of a minor variance under section 45 of the Planning Act;*
- (c) a conveyance of land to which a by-law passed under subsection 50 (7) of the Planning Act applies;*
- (d) the approval of a plan of subdivision under section 51 of the Planning Act;*
- (e) a consent under section 53 of the Planning Act;*
- (f) the approval of a description under section 9 of the Condominium Act, 1998; or*
- (g) the issuing of a permit under the Building Code Act, 1992 in relation to a building or structure. “*

The DCA and O.Reg. 82/98 are very prescriptive in the services and costs that can be included in the DC calculations and how the calculations are to be undertaken. They also prescribe the stakeholder consultation and other requirements for implementation of development charges.

In general, the DCA and O.Reg.82/98 identify the following:

- The information must be presented in the background study
- The services for which DCs may be recovered
- The need to calculate the 10-year historical service levels to determine the maximum cost (cap) that may be included in the DC calculations. This does not apply to engineered services such as transportation, water, wastewater and stormwater.
- The requirement to determine “excess capacity” within the current services and whether or not such excess capacity is committed or available to facilitate new growth
- The period for forecasting costs. This is typically 10 years for most services but longer for others such as water, wastewater, stormwater, transportation, etc.

- The eligible and ineligible capital costs for inclusion in the DC calculations
- Required reductions to gross capital costs of DC related projects
- Creation and maintenance of dedicated reserve funds for each service
- Stakeholder consultation and notices and their timing
- The contents and effective period of the by-law (5 years)
- Protocol for appealing the proposed development charges
- Rules for collection of development charges including mandatory exemptions

Further details on the requirements of the DCA and O.Reg.82/98 are available by referencing these documents at www.ontario.ca/laws/statute/97d27 .

3.2 Prescribed Calculation Methodology

The methodology for calculating development charges is defined by the specific requirements of the DCA and O.Reg. 82/98 and is very consistent across Ontario.

The DCA Section 5(1) states that: *“The following is the method that must be used, in developing a development charge by-law, to determine the development charges that may be imposed:*

- 1. The anticipated amount, type and location of development, for which development charges can be imposed, must be estimated.*
- 2. The increase in the need for service attributable to the anticipated development must be estimated for each service to which the development charge by-law would relate.*
- 3. The estimate under paragraph 2 may include an increase in need only if the council of the Township has indicated that it intends to ensure that such an increase in need will be met. The determination as to whether a council has indicated such an intention may be governed by the regulations.*
- 4. The estimate under paragraph 2 must not include an increase that would result in the level of service exceeding the average level of that service provided in the Township over the 10-year period immediately preceding the preparation of the background study required under section 10. How the level of service and average level of service is determined may be governed by the regulations. The estimate also must not include an increase in the need for*

service that relates to a time after the 10-year period immediately following the preparation of the background study unless the service is set out in subsection (5).

- 5. The increase in the need for service attributable to the anticipated development must be reduced by the part of that increase that can be met using the Township's excess capacity, other than excess capacity that the council of the Township has indicated an intention would be paid for by new development. How excess capacity is determined and how to determine whether a council has indicated an intention that excess capacity would be paid for by new development may be governed by the regulations.*
- 6. The increase in the need for service must be reduced by the extent to which an increase in service to meet the increased need would benefit existing development. The extent to which an increase in service would benefit existing development may be governed by the regulations.*
- 7. The capital costs necessary to provide the increased services must be estimated. The capital costs must be reduced by the reductions set out in subsection (2). What is included as a capital cost is set out in subsection (3). How the capital costs are estimated may be governed by the regulations.*
- 8. The capital costs must be reduced by 10 per cent. This paragraph does not apply to services set out in subsection (5).*
- 9. Rules must be developed to determine if a development charge is payable in any case and to determine the amount of the charge, subject to the limitations set out in subsection (6).*
- 10. The rules may provide for full or partial exemptions for types of development and for the phasing in of development charges. The rules may also provide for the indexing of development charges based on the prescribed index".*

4 Step 2: Policy Framework

4.1 Existing Development Charges By-Law No. 2014-01

The existing DC By-Law No. 2014-01 was approved by the Township's Council on February 12, 2014 and will remain effective until expiry on February 11, 2019. Some of the main features of the existing by-law include:

- Identifying the following services for which the DCs are currently collected:
 - Fire Services;
 - Roads & Related;

- Public Works;
 - Parks & Recreation;
 - Library Services;
 - General Government
 - Water Services; and
 - Wastewater Services
- Establishing rules for exemptions, industrial buildings expansions and redevelopment of existing properties.
- Exempting Commercial Development Charges properties zoned Village Commercial by Zoning By-law 2000-57, as amended, or its successor, in the downtown core areas of the communities of Port McNicoll, Victoria Harbour and Waubaushene.
- Collecting residential DCs on per “dwelling unit” the basis times the number of dwelling units;
- Setting residential DCs for the following types of dwelling units:
 - Single Detached & Semi-Detached Dwellings;
 - Multiples Dwellings;
 - Apartment Units - 2 or more Bedrooms; and
 - Apartment Units - Bachelor and 1 Bedroom
- Collecting non-residential DCs on the basis of GFA which is consistent with industry practise.

A copy of the existing DC By-law No. 2014-01 is available on the Township’s website at: www.tay.ca/en/your-municipality/resources/Documents/DCA-By-law-Passed-Feb-2014.pdf

4.2 Policy Direction

The policies used in preparing the background study and by-law were guided by the existing DC By-law 2014-01 as described in Section 4.1 and a Council workshop was held on September 26, 2018 to solicit feedback. The outcome of discussions was to maintain the policies of the current by-law. These include discretionary exemptions for commercial development as noted in Section 4.1.

It is important to note that reductions in revenue due to exemptions result in increase needs in tax and rate budgets. A table outlining the policy items covered in the by-law is included in the final document in Appendix A. It should be noted that no policy items were raised in this review.

5 Step 3: Services Eligible for Development Charges

The services identified for inclusion in the study are listed in Table 5-1. These met the eligibility criteria noted in O.Reg.82/98 Section 2.1.

Table 5-1: Eligible Services

Services Included in DC Calculations	
<ul style="list-style-type: none"> • General Government <ul style="list-style-type: none"> - Growth Related Studies • Fire Services <ul style="list-style-type: none"> - Fire Vehicles - Buildings, Land & Furnishings - Equipment • Roads & Related Services <ul style="list-style-type: none"> - Road Works - Related Studies • Park & Recreation Services <ul style="list-style-type: none"> - Indoor Recreation - Outdoor Recreation 	<ul style="list-style-type: none"> • Library Services <ul style="list-style-type: none"> - Facilities - Vehicles - Equipment • Public Works <ul style="list-style-type: none"> - Public Works Facilities - Public Works Fleet • Wastewater Services <ul style="list-style-type: none"> - Treatment - Collection • Water Services <ul style="list-style-type: none"> - Water Supply & Treatment - Water Storage - Water Distribution

6 Step 4: Population and Employment Growth

The DCA Section 5(1) requires that *“the anticipated amount, type and location of development, for which development charges can be imposed, must be estimated”*. Therefore, estimated future growth in new households over the study period and the location of such growth is required for the calculations. Determination of net historical growth over the last 10 years is also required to determine the historical service levels. The projected net residential and employment population growth are used to determine the service level caps. Population growth in new households and employment growth are used to allocate costs between residential and non-residential growth and calculate the development charges on a per capita and per square metre basis for residential and non-residential respectively.

In Simcoe County, Provincial and County direction for accommodating population and employment growth and related development is provided by the Provincial Policy Statement (PPS), the Growth Plan for the Greater Golden Horseshoe (Growth Plan) and the Simcoe County Official Plan.

Simcoe County has prepared a population, household and employment forecast to 2031 allocating the growth by municipality. These projects are documented in the respective Residential and Employment Land Budgets for the Township. Projections beyond 2031 are not yet allocated or approved.

Appendix B provides the residential and employment projections for:

- The 10-year historical period 2009 to 2018;
- The 10-year study period 2019 to 2028; and
- The build out period 2028 to 2031

The annual growth is assumed to be linear between the milestone years. The growth in population, employment and dwelling units are based on growth information contained in the Township of Tay Municipal Residential Land Budget 2017, Employment Land Budget 2017 and Statistics Canada 2016 census data.

6.1 Municipal Wide Growth

Table 6-1 summarizes the growth in residential population over the next 10 years (2019 - 2029) and to build out (2019 -2031). The municipal wide growth in population for the 10-year period is 703 and 914 to 2031. Approximately 95% of the growth is expected in the settlement areas.

Table 6-1: Municipal Wide Population Growth (2019-2031)

Geographical Area	10-Year Development Charges Study Period (2019-2028)	Beyond 10 Years (2029-2031)	Total to Build Out (2019-2031)	% of Total ²
Delineated Built Boundaries & Undelineated Built-Up Areas ¹	141	42	183	20%
Designated Greenfield Areas ¹	528	158	686	75%
Subtotal Settlement Areas	668	200	869	95%
Outside Settlement Areas ¹	35	11	46	5%
Total Population Increase	703	211	914	100%

1. Township of Tay Municipal Residential Land Budget 2017 Table 1 for 2016 & 2031. Interpolation in between years.

2. Percentage allocations using percentages in Table 2, Township of Tay Municipal Residential Land Budget 2017

Table 6-2 shows the number of new dwelling units to be 437 over 10 years and 569 to 2031. According to the housing mix identified in 2017 Land Budget Table 5, single and semi-detached account for 90% (512) of the projected growth in new units and multiples 10% (57 by 2031). No growth in apartment units is expected. The residential growth to be accommodated in these new units is projected to be 1,032 by 2028 and 1,342 to build out as shown in Table 6-3.

Table 6-2: Municipal Wide Growth in New Dwelling Units

Geographical Area	10-Year Development Charges Study Period (2019-2028)	Beyond 10 Years (2029-2031)	Total to Build Out (2019-2031)	% of Total ²
Delineated Built Boundaries & Undelineated Built-Up Areas ¹	87	26	114	20%
Designated Greenfield Areas ¹	328	98	426	75%
Subtotal Settlement Areas	415	125	540	95%
Outside Settlement Areas ¹	22	7	28	5%
Total Increase in Household Units	437	131	569	100%

1. Township of Tay Municipal Residential Land Budget 2017 Table 1 for 2016 & 2031. Interpolation in between years.

2. Percentage allocations using percentages in Table 2, Township of Tay Municipal Residential Land Budget 2017

Table 6-3: Municipal Wide Population Growth in New Dwelling Units

Dwelling Type	Persons Per Unit (PPU) ¹	10-Year Development Charges Study Period (2019-2028)		Beyond 10 Years (2029-2031)		Total to Build Out (2019-2031)	
		No. of Units	Population Growth	No. of Units	Population Growth	No. of Units	Population Growth
Single Detached & Semi Detached	2.40	394	945	118	283	512	1,228
Multiples	2.00	44	87	13	26	57	114
Apartments	1.90	-	-	-	-	-	-
Population Increase in New Units		437	1,032	131	310	569	1,342

1. PPUs from 2016 Statistics Canada Census Data

The employment growth projections over the same periods are shown in Table 6-4. The projected employment growth is 98 for the first 10 years and 127 to build out. These equate to an additional 6,973 m² of Gross Floor Area (GFA) in the first 10 years and 9,410 m² to build out. The floor area was calculated using the average employment density for all lands as derived from the 2016 Simcoe County DC Study 2016, Appendix A, Tables 12 and 13. The average conversion rate used is 71.15 m² per employee which is consistent with the County's average.

Table 6-4: Municipal Wide Employment Growth

Employment Sector	10-Year Development Charges Study Period (2019-2028)	Beyond 10 Years (2029-2031)	Total to Build Out (2019-2031)	% of Total to Build Out (2019-2031)
<u>Population</u>				
Employment Land Employment	21	6	27	21%
Population Related Employment (PRE)	29	9	38	30%
Rural	49	15	63	49%
Total Employment Population Increase	98	29	127	100%
<u>¹ Gross Floor Area (m²)</u>				
Employment Land Employment	1,459	438	1,896	20%
Population Related Employment (PRE)	2,063	619	2,682	29%
Rural	3,451	1,380	4,831	51%
Total GFA Increase (m²)	6,973	2,437	9,410	100%

1. GFA Per Employee is the average from 2016 Simcoe County DC Study, Appendix A, Tables 12 & 13.

6.2 Urban Area Growth

In keeping with the direction of the PPS and Growth Plan, and Land Budget, the majority of future population and housing growth in the Township will be directed to the urban areas referred to as *"Delineated Built Boundaries, Undelineated Built-Up Areas and Designated Greenfield Areas"*.

The growth in new units in these areas represents approximately 95% of the municipal dwelling unit growth. This equates to 415 units by 2028 and 540 by 2031 (build out) as shown in Table 6-2. The corresponding population increases (in new units) for the respective periods are 980 and 1,275. It is anticipated that the growth in the urban areas will be supported by the installation of new or expansion of existing water and wastewater systems, as necessary.

The employment growth estimate by 2031 is 121 which is equivalent to a GFA of approximately 8,939 m² as shown in Table 6-5. These urban area projections form the basis for the water and wastewater charges.

Table 6-5: Urban Area Employment Growth to Build Out (2018 - 2041)

Settlement Area	10-Year Development Charges Study Period (2019-2028)	Beyond 10 Years (2029-2031)	Total to Build Out (2019-2031)	% of Total to Build Out (2019-2031) ²
<u>Employment Population</u>				
Delineated Built Boundaries & Undelineated Built-Up Areas ¹	20	6	25	20%
Designated Greenfield Areas ¹	74	22	96	75%
Total Employment Population Increase	93	28	121	95%
<u>¹ Gross Floor Area (m²)</u>				
Delineated Built Boundaries & Undelineated Built-Up Areas ¹	1,395	487	1,882	20%
Designated Greenfield Areas ¹	5,230	1,828	7,057	75%
Total GFA Increase (m²)	6,624	2,315	8,939	95%

1. GFA Per Employee is the average from 2016 Simcoe County DC Study, Appendix A, Tables 12 & 13.

2. Percentage allocations using percentages in Table 2, Township of Tay Municipal Residential Land Budget 2017

7 Step 5: Historical Service Levels

The DCA Section 5(1)4 limits the level of service to be provided to new customers to the same as the average level of service over the 10-year period immediately preceding the year of the new DC Background Study. This requirement ensures that improvements to existing service levels are not funded by the new development charges. Accordingly, the capital cost to be recovered through the development charges must not exceed an amount (referred to as the service level “cap”) using the 10-year historical service level as the basis. This requirement applies to all eligible service except for general government, water and wastewater.

The amount of the cap is calculated by first determining the average historical cost per population. The inventory of historical services (e.g. facilities gross floor areas, number of units of equipment, etc.), current replacement costs and the historical populations are used to calculate the average historical service level. These satisfy the requirements of O.Reg. Section 4(1) which state that the quantity (number of units of equipment, etc.) and quality (e.g. cost per unit) of the services must be taken into account. The cap is calculated by multiplying the average service level (cost per population) by the projected population over the next 10 years. The inventory and replacement costs were provided by the Township.

The detailed tables showing the historical service level calculations for each service are included in Appendices C1 to C5. Table 7-1 summarizes the historical average service level for each eligible service. The service level cap for each service was used to adjust the capital costs in calculating the net to be recovered through the development charges. This is further described in Section 8.4. Service level caps do not apply to studies, water and wastewater.

Table 7-1: Average Historical Service Levels

Service	10 Year Historical Average Service Level Per Capita	Population Used
General Government	N/A	N/A
Library	\$ 335.55	Residential
Fire	\$ 684.52	Residential and Employment
Parks & Recreation	\$ 1,387.46	Residential
Public Works	\$ 662.83	Residential and Employment
Roads and Related	\$ 4,971.90	Residential and Employment
Water	N/A	N/A
Wastewater	N/A	N/A

8 Step 6: Net Growth-Related Capital Costs

This Section presents the capital investments required to facilitate the projected residential and employment growth. All required deductions and allowable adjustments were made in accordance with the DCA and O.Reg.82/98 to arrive at the net capital investment required for each service. The service level caps and post period provisions were applied to these amounts to identify the net costs to be recovered from the development charges.

It should be noted that costs to be recovered from future growth include debts incurred for previous growth-related capital works related to fire, public works, water and wastewater. These debts are recoverable from future growth with the principal repayment made over the study period having been included for recovery, as well as the corresponding interest payments, which have been discounted back to 2019 dollars. The principal and interest payment occurring beyond the study period will be recovered in future DC study updates.

Also considered in the development of net growth-related capital costs were post period amounts identified to be carried forward from the previous study. These provisions were reviewed with staff and determined to already be addressed in the capital program as presented or through completion of capital works, and therefore not included

The detailed calculations are presented by service in Appendices D1 to D8.

8.1 Step 6.1: Growth Related Capital Needs

Table 8-1 summarizes the gross capital needs for each service before required deductions and allowable adjustments were made. The respective periods over which these costs would be incurred for each service are also shown. The amounts shown are the costs of the projects that are required to facilitate growth as identified by staff, the Township's Long-Term Financial Plan and/or master servicing plans.

All or a portion of the funding for each of these projects would be from development charges. Approximately \$24.13 million in capital investment (not including water and wastewater is required to support future growth over the periods indicated. Additional investments of approximately \$6.91 million in the water systems and \$12.35 million in wastewater systems would also be required in areas where these services would be offered. The total requirement is approximately \$43.39 million.

Table 8-1: Growth- Related Capital Needs (Gross)

Service	Gross Cost	Period
Township Wide Services		
General Government	\$ 270,000	2019 - 2028
Library	\$ 379,500	2019 - 2028
Fire	\$ 4,085,192	2019 - 2028
Parks & Recreation	\$ 1,385,000	2019 - 2028
Public Works	\$ 412,501	2019 - 2028
Roads and Related	\$ 17,596,984	2019 - 2028
Total Township Wide Services	\$ 24,129,177	
Water and Wastewater Services		
Water	\$ 6,907,109	2019 - 2031
Wastewater	\$ 12,348,943	2019 - 2031
Total Water and Wastewater Services	\$ 19,256,051	
Total	\$ 43,385,229	

8.2 Step 6.2: Deductions

Table 8-2 summarizes the net capital needs for each service after making the required deductions. These deductions reduce the amounts recoverable from development charges and are in accordance with the requirements of the DCA and O.Reg.82/98.

The net recoverable amount after deductions is approximately \$4.85 million (not including water and wastewater vehicles) and approximately \$3.83 million for water and \$5.64 million for wastewater. The total recoverable amount is approximately \$14.31 million. Appendix D shows the detailed deductions for each service.

Table 8-2: Net Recoverable Capital Costs after Deductions

Service	Gross Cost	Grants/ Subsidies	Benefit To Existing Development	Required 10% Discount	Total Development Recoverable Costs Net of Stat. Deduction
Township Wide Services					
General Government	\$ 270,000	\$ -	\$ 50,000	\$ 22,000	\$ 198,000
Library	\$ 379,500	\$ -	\$ 139,750	\$ 23,975	\$ 215,775
Fire	\$ 4,085,192	\$ -	\$ 2,230,884	\$ -	\$ 1,854,308
Parks & Recreation	\$ 1,385,000	\$ -	\$ 352,440	\$ 103,256	\$ 929,304
Public Works	\$ 412,501	\$ -	\$ 56,875	\$ -	\$ 355,626
Roads and Related	\$ 17,596,984	\$ -	\$ 16,299,181	\$ -	\$ 1,297,803
Total Township Wide Services	\$ 24,129,177	\$ -	\$ 19,129,130	\$ 149,231	\$ 4,850,816
Water and Wastewater Services					
Water	\$ 6,907,109	\$ -	\$ 3,080,000	\$ -	\$ 3,827,109
Wastewater	\$ 12,348,943	\$ -	\$ 6,712,935	\$ -	\$ 5,636,007
Total Water and Wastewater Services	\$ 19,256,051	\$ -	\$ 9,792,935	\$ -	\$ 9,463,116
Total	\$ 43,385,229	\$ -	\$ 28,922,066	\$ 149,231	\$ 14,313,932

8.3 Step 6.3: Adjustments

Adjustments to the projected capital costs considered:

- Positive and negative reserve balances. Positive balances were deducted, and negative balances added to the recoverable amounts;
- Adding any credits owed to developers based on existing front-end agreements. In the Township's case there were no credits;

Table 8-3 summarizes the adjustments made. The adjustments made were to reduce the respective capital projections for each service by the amounts of existing positive reserve balances and increase for negative reserve balances. There were no credits to be brought forward. The respective positive reserve fund balances are deemed available cash that were applied to the growth-related costs to reduce the amount required from the new development charges. Negative reserve fund balances are deemed debts that are required to be recovered from new development. The total adjustments made were approximately \$1.39 million.

Table 8-3: Summary of Adjustments

Service	Reserve Balance	Reserve Deficits	Credits	Total Adjustments
Township Wide Services				
General Government	\$ 20,473	\$ -	\$ -	\$ 20,473
Library	\$ 2,000	\$ -	\$ -	\$ 2,000
Fire	\$ -	\$ (12,951)	\$ -	\$ (12,951)
Parks and Recreation	\$ 418,616	\$ -	\$ -	\$ 418,616
Public Works	\$ 63,369	\$ -	\$ -	\$ 63,369
Roads and Related	\$ 314,374	\$ -	\$ -	\$ 314,374
Total Township Wide Services	\$ 818,833	\$ (12,951)	\$ -	\$ 805,882
Water and Wastewater Services				\$ -
Water Services	\$ 402,957	\$ -	\$ -	\$ 402,957
Wastewater Services	\$ 177,061	\$ -	\$ -	\$ 177,061
Total Water and Wastewater Services	\$ 580,018	\$ -	\$ -	\$ 580,018
Total Adjustments	\$ 1,398,851	\$ (12,951)	\$ -	\$ 1,385,899

Table 8-4 summarizes the recoverable net capital for each service after making the required deductions and adjustments but before the service level caps were applied and post period capacity calculated.

The net recoverable amount after deductions and adjustments is approximately \$4.04 million for Township wide services and approximately \$3.42 million for water and \$5.46 million for wastewater. The total requirement is approximately \$12.93 million. The adjustments are also shown in Appendices D1 to D8 for each service.

Table 8-4: Net Recoverable Capital Costs after Deductions & Adjustments

Service	Total Development Recoverable Costs Net of Stat. Deduction	Adjustments	Total DC Eligible Costs for Recovery
Township Wide Services			
General Government	\$ 198,000	\$ 20,473	\$ 177,527
Library	\$ 215,775	\$ 2,000	\$ 213,775
Fire	\$ 1,854,308	\$ (12,951)	\$ 1,867,259

Total Water and Wastewater Services	\$ 9,463,116	\$ 580,018	\$ 8,883,099
Total	\$ 14,313,932	\$ 1,385,899	\$ 12,928,033

8.4 Step 6.4: Service Level Cap

The service level cap is calculated based on the historical service levels. It limits the amount of funding recoverable from the development charges for some services regardless of the net amounts after deductions and adjustments. The lower of the recoverable amounts net of deductions and adjustments or the service level cap were used to determine the development charges. Amounts that exceed the service level cap were deemed to be post period capacity which can be carried forward to the next study for consideration at that time. While service level caps do not apply to water and wastewater, post period capacity has also been identified for water and wastewater. This is due to the relatively short study period that ends in 2031 whereas the benefit of the projects would extend well beyond 2031. Water and Wastewater post period calculations are the result of plant and storage capacity projects being funded over the short planning period in this study. To ensure fairness in the rates it has been proposed that the new capacity be allocated over a 20 years period, with post 2031 capacity to be recovered in future updates of the DC by-law.

Table 8-5: Application of Service Level Caps

Service	Gross Capital Needs	Net Capital Needs	Service Level Cap	Post Period Capacity to be Carried Forward	Total DC Eligible Costs for Recovery
Township Wide Services					
General Government	\$ 270,000	\$ 177,527		\$ -	\$ 177,527
Library	\$ 379,500	\$ 213,775	\$ 236,000	\$ -	\$ 213,775
Fire	\$ 4,085,192	\$ 1,867,259	\$ 548,527	\$ 1,318,733	\$ 548,527
Parks and Recreation	\$ 1,385,000	\$ 510,688	\$ 975,847	\$ -	\$ 510,688
Public Works	\$ 412,501	\$ 292,256	\$ 531,151	\$ -	\$ 292,256
Roads and Related	\$ 17,596,984	\$ 983,429	\$ 3,984,152	\$ -	\$ 983,429
Total Township Wide Services	\$ 24,129,177	\$ 4,044,934		\$ 1,318,733	\$ 2,726,201
Water and Wastewater Services					
Water	\$ 6,907,109	\$ 3,424,152		\$ 907,200	\$ 2,516,952
Wastewater	\$ 12,348,943	\$ 5,458,947		\$ 1,030,750	\$ 4,428,197
Total Water and Wastewater Services	\$ 19,256,051	\$ 8,883,099		\$ 1,937,950	\$ 6,945,149
Total Adjustments	\$ 43,385,229	\$ 12,928,033		\$ 3,256,683	\$ 9,671,350

Table 8-5 summarizes the service level caps, recoverable amounts through the development charges and any post period capacity to be carried forward to the next study. The Total DC Eligible Cost for Recovery were the final amounts used to calculate the development charges as described in Section 9.

The net recoverable amount after deductions and adjustments, application of the service level caps and provision of post period capacity is approximately \$2.73 million for Township wide services and approximately \$2.52 million for water and \$4.43 for wastewater. The detailed calculations for each service are presented in Appendices D1 to D8.

8.5 Council Approval of Capital Investments

O.Reg.82/98 Section 3 requires that municipal councils demonstrate their intention to meet the increase in need for capital expenditures related to growth. Otherwise such capital costs cannot be included in the calculations. Therefore, it is recommended that Council approve the capital forecasts noted in Section 8.1 and provided in Appendix D to confirm its intention to meet the growth requirements.

9 Step 7: Calculation of Development Charges

This section presents the calculation of the residential and non-residential development charges based on the net recoverable growth-related capital costs determined in the previous sections of this report. The calculation details are shown in Appendices E1 to E8.

9.1 Step 7.1: Allocation of Costs to Residential & Non-Residential Growth

Many of the services provided by the Township benefit both the residential and non-residential sectors. The costs to be recovered for these services were allocated to the residential and non-residential sectors on the basis of each sector's proportionate share of total net residential and employment population growth. Some services such as Library, and Parks and Recreation services are geared to the residential sector with 100% of eligible costs being allocated to residential growth.

Table 9-1 shows the allocations for each service. The residential share of the Township wide costs to be recovered (not including water and wastewater) is approximately \$2.55 million and the non-residential share approximately \$0.17 million. The residential and non-residential shares of the water costs are approximately \$2.29 million and \$0.23 million respectively. The residential and non-residential shares of the wastewater costs are approximately \$4.03 million and \$0.40 million respectively.

Table 9-1: Allocation of Costs to Residential & Non-Residential

Service	Net Capital Needs to be Recovered	Residential Share	Non-Residential Share	Basis for Allocation
Township Wide Services				
General Government	\$ 177,527	\$ 162,132	\$ 15,395	% of Population and Employment Growth
Library	\$ 213,775	\$ 213,775	-	100% residential
Fire	\$ 548,527	\$ 500,960	\$ 47,567	% of Population and Employment Growth
Parks and Recreation	\$ 510,688	\$ 510,688	-	100% residential
Public Works	\$ 292,256	\$ 266,913	\$ 25,344	% of Population and Employment Growth
Roads and Related	\$ 983,429	\$ 898,149	\$ 85,280	% of Population and Employment Growth
Total Township Wide Services	\$ 2,726,201	\$ 2,552,616	\$ 173,586	
Water and Wastewater Services				
Water	\$ 2,516,952	\$ 2,288,244	\$ 228,707	% of Population and Employment Growth
Wastewater	\$ 4,428,197	\$ 4,025,820	\$ 402,376	% of Population and Employment Growth
Total Water and Wastewater Services	\$ 6,945,149	\$ 6,314,065	\$ 631,084	
Total Adjustments	\$ 9,671,350	\$ 8,866,681	\$ 804,669	

9.2 Step 7.2: Unadjusted Development Charge Rates

Development charge rates were calculated on a per capita (population) basis for the residential sector by dividing the costs allocated to residential by the residential population growth over the 10-year period 2019 to 2028. For water and wastewater services this period was 13 years (2019-2031). Similarly, the non-residential rates were calculated by dividing the non-residential cost allocations by the growth in gross floor area over the 10-year period to arrive at a cost per m². These resulted in the preliminary unadjusted residential and non-residential rates prior to undertaking the cash flow analyses. These rates were subsequently adjusted as described in Section 9.3.

Table 9-2 shows the unadjusted residential and non-residential rates by service. Assumptions used in the calculation of gross floor area related to industrial, commercial and institutional employment are consistent with the assumptions used in the County's development charge study.

Table 9-2: Unadjusted Residential & Non-Residential Rates

Service	Residential			Non-Residential		
	Cost	Growth in Population	Rate (Cost/Capita)	Cost	Growth in Floor Area (Square Metres)	Rate (Cost/m ²)
Township Wide Services						
General Government	\$ 162,132	1,032	\$ 157.09	\$ 15,395	6,973	\$ 2.21
Library	\$ 213,775	1,032	\$ 207.12	\$ -	6,973	\$ -
Fire	\$ 500,960	1,032	\$ 485.38	\$ 47,567	6,973	\$ 6.82
Parks and Recreation	\$ 510,688	1,032	\$ 494.80	\$ -	6,973	\$ -
Public Works	\$ 266,913	1,032	\$ 258.61	\$ 25,344	6,973	\$ 3.63
Roads and Related	\$ 898,149	1,032	\$ 870.21	\$ 85,280	6,973	\$ 12.23
Total Township Wide Services	\$ 2,552,616		\$ 2,473.21	\$ 173,586		\$ 24.90
Water and Wastewater Services						
Water	\$ 2,288,244	1,275	\$ 1,795.19	\$ 228,707	8,939	\$ 25.59
Wastewater	\$ 4,025,820	1,275	\$ 3,158.37	\$ 402,376	8,939	\$ 45.01
Total Water and Wastewater Services	\$ 6,314,065		\$ 4,953.56	\$ 631,084		\$ 70.60
Total Adjustments	\$ 8,866,681		\$ 7,426.77	\$ 804,669		\$ 95.49

9.3 Step 7.3: Cash Flow Analyses

Cash flow analyses were undertaken over the 10-year period 2019 to 2028 for services with a 10-year study period. A 13-year cash flow period was used for the other services. These analyses considered the transfers in and out of the respective reserve fund for each service and their timing. Cash outflows were according to the projected capital expenditures. Cash inflows were calculated by multiplying the projected annual residential population growth by the adjusted rate per capita and adding the product of the non-residential growth in floor area and

the adjusted rate per square metre. The rates were increased by inflation assumed at 2% per year. The objective of undertaking the cash flow analyses is to ensure that the rates are sufficient to result in a zero net cash flow at the end of the 10-year period. The rates were adjusted to achieve this objective. Appendices E1 to E8 provides a cash flow table for each service.

The adjusted rates are summarized in Table 9-3. The total residential rate for Township wide services was calculated to be \$2,406.98 per capita and the non-residential rate \$24.14 per m².

The rates for water were determined to be \$1,819.46 per capita and \$25.93 per m² for residential and non-residential respectively. The rates for wastewater were determined to be \$3,236.97 per capita and \$46.13 per m² for residential and non-residential respectively.

Table 9-3: Adjusted Residential & Non-Residential Rates (After Cash Flow Analyses)

Service	Residential Rate (Cost/Capita)	Non-Residential Rate (Cost/m ²)
Township Wide Services		
General Government	\$ 154.03	\$ 2.16
Library	\$ 208.98	\$ -
Fire	\$ 448.34	\$ 6.30
Parks and Recreation	\$ 480.72	\$ -
Public Works	\$ 253.75	\$ 3.57
Roads and Related	\$ 861.16	\$ 12.10
Total Township Wide Services	\$ 2,406.98	\$ 24.14
Water and Wastewater Services		
Water	\$ 1,819.46	\$ 25.93
Wastewater	\$ 3,236.97	\$ 46.13
Total Water and Wastewater Services	\$ 5,056.43	\$ 72.06
Total Adjustments	\$ 7,463.41	\$ 96.20

9.4 Step 7.4: Proposed Development Charges

The non-residential development charges are the adjusted rates per square metre calculated as described in Section 9.3. The residential development charges by type of dwelling unit were calculated using the adjusted rate per capita and the respective household size estimates (persons per unit – PPU) noted in Table 9-4 for each type of dwelling unit. The household sizes are based on the Statistics Canada 2016 Census data and Township's 2013 Development

Charges Study for Bachelor & 1-Bedroom Units. These calculations were undertaken for each service and type of dwelling and are consistent with requirements of O.Reg. 82/98 Section (2).

Table 9-4: Occupancy by Type of Dwelling Unit

Type of Dwelling Unit	Occupancy - Persons per Unit (PPU)
Single Detached & Semi- Detached	2.40
Other Multiples	2.00
Apartments – 2 or More Bedrooms	1.90
Apartments – Bachelor & 1 Bedroom	1.50

The proposed residential development charges by unit type are listed in Table 9-5 for each service and are based on the policies and rules noted in Section 4.2. The development charge for a single detached dwelling was calculated to be \$5,777 for the Township wide services and \$12,135 for water and wastewater. These are rounded to the nearest dollar. Table 9-5 also shows the proposed non-residential rates and total \$96.20 per m². All charges will be subject to annual indexing in accordance with O.Reg.82/98 Section 7.

Table 9-5: Proposed Development Charges

Service	Residential Charge By Dwelling Type				Non-Residential Charge (per square metre of Gross floor area)
	Single Detached Dwellings and Semi-Detached Dwellings	Other Multiples	Apartment Units - 2 or more Bedrooms	Apartment Units - Bachelor and 1 bedroom	
General Government	\$ 370	\$ 308	\$ 293	\$ 231	\$ 2.16
Library	\$ 502	\$ 418	\$ 397	\$ 313	\$ -
Fire	\$ 1,076	\$ 897	\$ 852	\$ 673	\$ 6.30
Parks & Recreation	\$ 1,154	\$ 961	\$ 913	\$ 721	\$ -
Public Works	\$ 609	\$ 508	\$ 482	\$ 381	\$ 3.57
Roads and Related	\$ 2,067	\$ 1,722	\$ 1,636	\$ 1,292	\$ 12.10
Sub-total Township Wide Services	\$ 5,777	\$ 4,814	\$ 4,573	\$ 3,610	\$ 24.14
Water	\$ 4,367	\$ 3,639	\$ 3,457	\$ 2,729	\$ 25.93
Wastewater	\$ 7,769	\$ 6,474	\$ 6,150	\$ 4,855	\$ 46.13
Sub-total for Water and Wastewater	\$ 12,135	\$ 10,113	\$ 9,607	\$ 7,585	\$ 72.06
TOTAL CHARGE PER FULLY SERVICED UNIT	\$ 17,912	\$ 14,927	\$ 14,180	\$ 11,195	\$ 96.20

10 Step 8: Comparison of Development Charges

10.1 Comparison with 2018 Existing and Proposed Development Charges

Table 10-1 compares the proposed development charges with the existing 2018 charges.

The proposed Township-wide charges for single family and other multiple dwelling units, as well as the non-residential charges will decrease over the current 2018 charges. Township-wide charges for the large and small apartment residential categories will increase. Proposed residential and non-residential charges for water and wastewater services will also increase over the current 2018 charges.

Overall, the proposed total charges for all residential categories and non-residential uses will increase over current 2018 charges.

Table 10-1: Proposed vs. Existing 2018 Development Charges

Service	Residential Charge By Dwelling Type				Non-Residential Charge
	Single/Semi-Detached Dwelling	Other Multiples	Apartments Units - 2 or more Bedrooms	Apartments-Bachelor and 1 bedroom	(per m ² of Gross Floor Area)
CURRENT (2018) CHARGES					
Total Township Wide Services	\$ 6,309	\$ 5,409	\$ 4,508	\$ 3,381	\$ 27.60
Total Water and Wastewater Services	\$ 10,903	\$ 9,345	\$ 7,789	\$ 5,840	\$ 60.56
GRAND TOTAL TOWNSHIP WIDE CHARGE	\$ 17,212	\$ 14,754	\$ 12,297	\$ 9,221	\$ 88.16
PROPOSED CHARGES					
Total Township Wide Services	\$ 5,777	\$ 4,814	\$ 4,573	\$ 3,610	\$ 24.14
Total Water and Wastewater Services	\$ 12,135	\$ 10,113	\$ 9,607	\$ 7,585	\$ 72.06
GRAND TOTAL TOWNSHIP WIDE CHARGE	\$ 17,912	\$ 14,927	\$ 14,180	\$ 11,195	\$ 96.20
DIFFERENCE					
Total Township Wide Services	\$ (532)	\$ (595)	\$ 65	\$ 229	\$ (3.46)
Total Water and Wastewater Services	\$ 1,232	\$ 768	\$ 1,818	\$ 1,745	\$ 11.50
GRAND TOTAL TOWNSHIP WIDE CHARGE	\$ 700	\$ 173	\$ 1,883	\$ 1,974	\$ 8.04

10.2 Comparison with 2019 Projected and Proposed Development Charges

Table 10-2 compares the proposed development charges with projected 2019 charges that will come into effect on January 1, 2019 as a result of the automatic annual indexation of development charges. 2018 development charge rates will increase on January 1st by 5.2% based on increases in the Non-Residential Building Construction Price Index.

Table 10-2: Proposed vs. Projected 2019 Development Charges

Service	Residential Charge By Dwelling Type				Non-Residential Charge
	Single/Semi-Detached Dwelling	Other Multiples	Apartments Units - 2 or more Bedrooms	Apartments-Bachelor and 1 bedroom	(per m ² of Gross Floor Area)
PROJECTED (2019) CHARGES					
Total Township Wide Services	\$ 6,637	\$ 5,690	\$ 4,743	\$ 3,556	\$ 29.04
Total Water and Wastewater Services	\$ 11,470	\$ 9,831	\$ 8,194	\$ 6,144	\$ 63.71
GRAND TOTAL TOWNSHIP WIDE CHARGE	\$ 18,107	\$ 15,521	\$ 12,937	\$ 9,700	\$ 92.75
PROPOSED CHARGES					
Total Township Wide Services	\$ 5,777	\$ 4,814	\$ 4,573	\$ 3,610	\$ 24.14
Total Water and Wastewater Services	\$ 12,135	\$ 10,113	\$ 9,607	\$ 7,585	\$ 72.06
GRAND TOTAL TOWNSHIP WIDE CHARGE	\$ 17,912	\$ 14,927	\$ 14,180	\$ 11,195	\$ 96.20
DIFFERENCE					
Total Township Wide Services	\$ (860)	\$ (876)	\$ (170)	\$ 54	\$ (4.90)
Total Water and Wastewater Services	\$ 665	\$ 282	\$ 1,413	\$ 1,441	\$ 8.35
GRAND TOTAL TOWNSHIP WIDE CHARGE	\$ (195)	\$ (594)	\$ 1,243	\$ 1,495	\$ 3.45

11 Step 9: Long-Term Capital and Operating Costs Implications

This section presents the long-term cost implications of the investments to accommodate future growth. These assessments considered the implications to future operating and capital costs as well as the costs related to future asset renewal. The detailed projections are provided in Appendix F.

11.1 Long-Term Operating Costs

The long-term operating cost impacts were based on historical operating costs per capita noted in the Township's 2017 Financial Information Return reporting, and the projected increase in growth. Table 11-1 summarizes the estimated increase in operating costs due to new growth as it related to each service area. The total accumulative 10-year increase in operating costs is estimated to be approximately \$3.77 million, with \$1.94 million being funded from future tax payers, and \$1.83 million being funded from future rate payers

Table 11-1: 10-Year Operating Cost Implications

Cummulative Net Operating Impacts	
Service	Total
General Government	\$ -
Library	\$ 140,104
Fire	\$ 386,075
Parks and Recreation	\$ 504,310
Public Works	\$ 4,617
Roads and Related	\$ 901,287
Water	\$ 812,537
Wastewater	\$ 1,021,514
Total Cummulative Net Operating Impacts	\$ 3,770,442

11.2 Long-term Capital Costs

The long-term capital cost impacts were determined to be the portions of growth-related costs not funded by development charges due to deductions. These amounts include the 10% statutory deductions and the “benefit to existing” amounts shown in Appendix D and would be funded through either taxes or the water and wastewater rates as the case may be. Table 11-2 summarizes the increase in capital costs (not funded through development charges) due to the addition of the new growth-related assets in each service area. The total 10-year accumulative increase in capital costs for the tax supported services is estimated to be approximately \$19.26 million. The increase for the rate supported services (water and wastewater) is approximately \$9.79 million.

Table 11-2: 10-year Capital Cost Implications

Cumulative Net Capital Cost Impacts	
By Service	Total
General Government	\$ 72,000
Library Services	\$ 163,725
Fire	\$ 2,230,884
Parks and Recreation	\$ 455,696
Public Works	\$ 56,875
Roads and Related	\$ 16,299,181
Water	\$ 3,080,000
Wastewater	\$ 6,712,935
Total Capital Cost Impacts	\$ 29,071,296

11.3 Asset Management Plan

The DCA Section 10(2) requires that an asset management plan be included in the Development Charges Background Study to capture the costs required to sustain the new growth-related assets over the long-term. This plan reflects the annual investments required to renew and replace the assets as they age. The growth-related capital cost estimates were annualized over the estimated life expectancies based on the future cost in projected the year of replacement. The estimated life expectancies used for the purpose of this study were 10 for vehicles, 20 years for equipment, and 40 years for facilities and infrastructure assets. The total 10-year asset management requirements estimated to be \$8.93 million. Approximately \$4.61 million relate to tax supported assets and \$4.32 million to rate supported assets.

Table 11-3: 10-Year Asset Management Cost Implications

Cummulative Net Lifecycle Impact	
Service	Total
General Government	\$ -
Library	\$ 218,383
Fire	\$ 227,540
Parks and Recreation	\$ 272,332
Public Works	\$ 33,261
Roads and Related	\$ 3,908,414
Water	\$ 1,379,381
Wastewater	\$ 2,921,126
Total Cummulative Net Lifecycle Impacts	\$ 8,960,436

12 Step 10: Background Study & By-Law

This background study report was prepared to provide the detail required in accordance with the DCA Section (10) and O.Reg.82/98 Section (8). The by-law is included in the study as Appendix G. The by-law identifies the services included, rules that apply to the development charges and schedule of applicable residential and non-residential development charges. The study and by-law will be revised based on the stakeholder consultation described in Section 13 prior to being finalized for approval by Council.

13 Step 11: Stakeholder Consultation

The DCA Section 10(4) requires that the Development Charges Study and the By-Law be made available to the public for review at least 60 days in advance of the passing of the by-law. This step in the process provides the opportunity for interested parties to make representations on the Development Charges Study and proposed by-law prior to finalization and implementation.

The legislation prescribes that Council conduct a public meeting with at least 20 days' notice of the meeting. In accordance with O. Reg. 82/98, Section 9 (1) notice may be by publication in a local newspaper, which in the Clerk's opinion, has with sufficient general circulation across the Township or by personal service, mail or fax to every land owner.

A meeting with stakeholders to solicit input was held on January 8th, 2019. As well, the statutory public meeting was held January 23rd, 2019 to receive comments. A report summarizing the comments and input received at the stakeholder meeting is included in Appendix H. All comments received will be considered and the study and by-law will be updated accordingly upon final approval by Council.

14 Step 12: By-Law Adoption & Implementation

The final background study and by-law has been prepared following consultation with stakeholders (as described in Section 13) and will be presented to Council for approval on February 6th 2019. In accordance with the DCA Section 13, written notice of the passing of the DC by-law will be given no later than 20 days after the day the by-law is passed (i.e. as of the day of newspaper publication or the mailing of the notice). The O.reg.82/98 Section 10(4) lists the items that must be covered in the notice.

A pamphlet will also be prepared in accordance with O.Reg.82/98 Section 14 within 60 days of the passing of the by-law and include the following:

- a description of the general purpose of the DCs;
- the "rules" for determining if a charge is payable in a particular case and for determining the amount of the charge;
- the services to which the DCs relate; and
- a general description of the general purpose of the Treasurer's statement and where it may be obtained by the public.

15 Recommendations

The following are the recommendations are presented for consideration by the Township.

1. That this DRAFT Development Charges Background Study and By-Law be posted on the Municipality's website effective immediately for public review in accordance with the requirements of the Development Charges Act, 1997 Section 10 (4).
2. That following approval of the by-law, the required notices are issued to the public and stakeholders and a pamphlet is prepared, in accordance with O.Reg.82/98 Section and O.Reg. 82/98 Section 14 respectively.
3. That the growth-related capital projects forecast identified in this Development Charges Background Study be approved by Council as a statement of its intention to meet the increased need for service due to growth, as required under O.Reg.82/98 Section 3.
4. That any excess capacity created as a result of undertaking the growth-related capital projects identified in this background study would be paid for by development charges and therefore deemed to be "committed" in accordance with the requirements of O.Reg.82/98 Section (5).

Proposed Development Charges By-Law

THE CORPORATION OF THE TOWNSHIP OF TAY

BY-LAW NUMBER 2019-07

A By-law to Establish Development Charges for the Corporation of the Township of Tay

WHEREAS the Township of Tay will experience growth through development and re-development;

AND WHEREAS subsection 2(1) of the Development Charges Act, 1997, S.O. 1997, c. 27 (hereinafter called the "Act") provides that the council of a municipality may pass By-laws for the imposition of development charges against land to pay for increased capital costs because of increased need for services arising from the development of the area to which the By-law applies;

AND WHEREAS the Council of The Corporation of the Township of Tay (hereinafter the "Township") held a public meeting on January 23, 2019 to consider the enactment of a development charge By-law, in accordance with section 12 of the Act;

AND WHEREAS the Council of the Township has given notice in accordance with section 12 of the Act, of its intention to pass a By-law under section 2 of the said Act;

AND WHEREAS a development charges background study has been prepared by DFA Infrastructure International Inc. dated November 30, 2019 and updated January 30, 2019 ("the background study"), wherein the background study indicated that the development of any land within the Township of Tay will increase the need for services as defined herein;

AND WHEREAS copies of the background study and the proposed development charges By-law were made available to the public in accordance with section 12 of the Act;

AND WHEREAS the Council of the Township has heard all persons who applied to be heard and received written submissions whether in objection to, or in support of, the development charges proposal at a public meeting held on January 23, 2019;

AND WHEREAS on February 6, 2019, Council approved the Report titled "2018 Development Charges (DC) Background Study" dated January 30, 2019, thereby updating its capital forecast where appropriate and indicated that it intends to ensure that the increase in the need for services to service the anticipated development will be met;

AND WHEREAS at its meeting held on February 6, 2019, Council expressed its intention that infrastructure related to post 2028 development shall be paid for by development charges or other similar charges;

AND WHEREAS Council has indicated its intent that the future excess capacity identified in the Development Charges Background Study, dated February 6, 2019, shall be paid for by development charges or other similar charges;

AND WHEREAS at its meeting held on February 6, 2019, Council approved the background study and determined that no further public meetings were required under section 12 of the Act.

NOW THEREFORE THE COUNCIL OF THE CORPORATION OF THE TOWNSHIP OF TAY ENACTS AS FOLLOWS:

1. INTERPRETATION

1.1 In this By-law the following items shall have the corresponding meanings:

“Act” means the Development Charges Act, 1997, S.O. 1997, c. 27, as amended or any successors thereto;

“apartment unit” means any residential unit within a building containing more than four dwelling units where the units are connected by an interior corridor;

“bedroom” means a habitable room which can be used as sleeping quarters, but does not include a bathroom, living room, dining room or kitchen;

“board of education” has the same meaning as set out in the *Education Act*, R.S.O. 1990, Chap. E.2, as amended, or any successor thereof;

“Building Code Act” means the *Building Code Act*, S.O. 1992, as amended, or any successor thereof;

“capital cost” means costs incurred or proposed to be incurred by the municipality or a local board thereof directly or by others on behalf of and as authorized by the municipality or local board,

- (a) to acquire land or an interest in land, including a leasehold interest,
- (b) to improve land,
- (c) to acquire, lease, construct or improve buildings and structures,
- (d) to acquire, construct or improve facilities including,
 - (i) furniture and equipment other than computer equipment, and
 - (ii) material acquired for circulation, reference or information purposes by a library board as defined in the *Public Libraries Act*, R.S.O. 1990, Chap. P.44, as amended, or any successor thereof; and
 - (iii) rolling stock with an estimated useful life of seven years or more, and
- (e) to undertake studies in connection with any matter under the Act and any of the matters in clauses (a) to (d) above, including the development charge background study required for the provision of services designated in this By-law within or outside the municipality, including interest on borrowing for those expenditures under clauses (a) to (e) above that are growth-related;

“commercial” means any use of land, structures or buildings for the purposes of buying or selling commodities and services, but does not include industrial or agricultural uses, but does include hotels, motels, motor inns and boarding, lodging and rooming houses;

“Council” means the Council of the Township of Tay;

“development” means the construction, erection or placing of one or more buildings or structures on land or the making of an addition or alteration to a building or structure that has the effect of increasing the size or usability thereof, and includes redevelopment;

“development charge” means a charge imposed with respect to this By-law;

“dwelling unit” means any part of a building or structure used, designed or intended to be used as a domestic establishment in which one or more persons may sleep and are provided with culinary and sanitary facilities for their exclusive use;

“existing” means the number, use and size that existed as of the date this By-law was passed;

“farm building” means that part of a farming operation or hobby farm operation encompassing barns, stables, silos and other ancillary development to an agricultural use, but excluding a residential use and a veterinary establishment use;

“gross floor area” means:

- (a) in the case of a residential building or structure, the total area of all floors above grade of a dwelling unit measured between the outside surfaces of exterior walls or between the outside surfaces of exterior walls and the centre line of party walls dividing the dwelling unit from any other dwelling unit or other portion of a building; and
- (b) in the case of a non-residential building or structure, or in the case of a mixed- use building or structure in respect of the non-residential portion thereof, the total area of all building floors above or below grade measured between the outside surfaces of the exterior walls, or between the outside surfaces of exterior walls and the centre line of party walls dividing a non-residential use and a residential use, except for:
 - (i) a room or enclosed area within the building or structure above or below grade that is used exclusively for the accommodation of heating, cooling, ventilating, electrical, mechanical or telecommunications equipment that service the building;
 - (ii) loading facilities above or below grade; and
 - (iii) a part of the building or structure below grade that is used for the parking of motor vehicles or for storage or other accessory use;

“industrial” means lands, buildings or structures used or designed or intended for use for manufacturing, processing, fabricating or assembly of raw goods, warehousing or bulk storage of goods, and includes office uses and the sale of commodities to the general public where such uses are accessory to an industrial use, but does not include the sale of commodities to the general public through a warehouse club;

“institutional” means land, buildings, structures or any part thereof used by any organization, group or association for promotion of charitable, educational or benevolent objectives and not for profit or gain;

“Local Board” means a school board, public utility, commission, transportation commission, public library board, board of park management, local board of health, board of commissioners of police, planning board, or any other board, commission, committee, body or local authority established or exercising any power or authority under any general or special Act with respect to any of the affairs or purposes, including school purposes, of the municipality or any part or parts thereof;

“local services” means those services, facilities or things which are under the jurisdiction of the Township of Tay and are related to a plan of subdivision or within the area to which the plan relates in respect of the lands under Sections 41, 51 or 53 of the *Planning Act*, R.S.O. 1990, Chap. P.13, as amended, or any successor thereof;

“multiple dwellings” means all dwellings other than single-detached, semi-detached and apartment unit dwellings;

“municipality” means the Corporation of the Township of Tay;

“non-residential use” means a building or structure of any kind whatsoever used, designed or intended to be used for other than a residential use;

“Official Plan” means the Official Plan adopted for the Township, as amended and approved;

“Owner” means the owner of land or a person who has made application for an approval for the development of land upon which a development charge is imposed;

“place of worship” means that part of a building or structure that is exempt from taxation as a place of worship under the *Assessment Act*, R.S.O. 1990, Chap. A.31, as amended, or any successor thereof;

“Rate” means the interest rate established weekly by the Bank of Canada based on Treasury Bills having a term of 91 days;

“regulation” means any regulation made pursuant to the Act;

“residential dwelling” means a building, occupied or capable of being occupied as a home, residence or sleeping place by one or more persons, containing one or more dwelling units but not including motels, hotels, tents, truck campers, tourist trailers, mobile camper trailers or boarding, lodging or rooming houses;

“residential use” means the use of a building or structure or portion thereof for one or more Dwelling Units. This also includes a dwelling unit on land that is used for an Agricultural Use;

“row dwelling” means a building containing three or more attached dwelling units in a single row, each of which dwelling units has an independent entrance from the outside and is vertically separated from any abutting dwelling unit;

“semi-detached dwelling” means a dwelling unit in a residential building consisting of two dwelling units having one vertical wall, but not other parts, attached to the other dwelling unit;

“service” means a service designed in Schedule “A” to this By-law, and “services” shall have a corresponding meaning;

“servicing agreement” means an agreement between a landowner and the municipality relative to the provision of municipal services to specified land within the municipality;

“single detached dwelling unit” means a residential building consisting of one dwelling unit and not attached to another structure;

“Township” means the area within the geographic limits of the Township of Tay; and

“Zoning By-law” means the Zoning By-law of the Township of Tay or any successor thereof passed pursuant to Section 34 of the Planning Act, R.S.O. 1990 Chap. P.13, as amended, or any successor thereof;

2. DESIGNATION OF SERVICES

2.1 The categories of services for which development charges are imposed under this By-law are as follows:

- (a) General Services;
- (b) Library Services;
- (c) Fire Protection Services;
- (d) Park Development & Indoor Recreation Services;
- (e) Public Works (Building & Fleet);
- (f) Roads and Related Services;
- (g) Water Services; and,
- (h) Wastewater Services.

2.2 The components of the services designated in section 2.1 are described in Schedule “A”.

3. APPLICATION OF BY-LAW RULES

- 3.1 Development charges shall be payable in the amounts set out in this By-law where:
- (a) the lands are located in the area described in section 3.2; and,
 - (b) the development of the lands requires any of the approvals set out in subsection 3.4.1.

Area to Which By-law Applies

- 3.2 Subject to section 3.3, this By-law applies to all lands in the Township of Tay whether or not the land or use thereof is exempt from taxation under s.13 or the Assessment Act.
- 3.3. Notwithstanding clause 3.2 above, this By-law shall not apply to lands that are owned by and used for the purposes of:
- (a) any municipality or a local board thereof; or
 - (b) a board of education.

Approvals for Development

- 3.4.1 Development charges shall be imposed on all lands, buildings or structures that are developed for residential or non-residential uses if the development requires:
- (a) the passing of a Zoning By-law or of an amendment to a Zoning By-law under section 34 of the *Planning Act*;
 - (b) the approval of a minor variance under section 45 of the *Planning Act*;
 - (c) a conveyance of land to which a By-law passed under subsection 50(7) of the *Planning Act* applies;
 - (d) the approval of a plan of subdivision under section 51 of the *Planning Act*;
 - (e) a consent under section 53 of the *Planning Act*;
 - (f) the approval of a description under section 50 of the *Condominium Act*, R.S.O. 1990, Chap. C.26, as amended, or any successor thereof; or
 - (g) the issuing of a permit under the *Building Code Act* in relation to a building or structure.
- 3.4.2 No more than one development charge for each service designated in subsection 2.1 shall be imposed upon any lands, buildings or structures to which this By-law applies even though two or more of the actions described in subsection 3.4.1 are required before the lands, buildings or structures can be developed.
- 3.4.3 Despite subsection 3.4.2, if two or more of the actions described in subsection 3.4.1 occur at different times, additional development charges shall be imposed if the subsequent action has the effect of increasing the need for services.

Exemptions

- 3.5 Notwithstanding the provisions of this By-law, development charges shall not be imposed with respect to:
- (a) an enlargement to an existing dwelling unit;
 - (b) one or two additional dwelling units in an existing single detached dwelling; or
 - (c) one additional dwelling unit in any other existing residential building.
- 3.6 Notwithstanding subsection 3.5(b), development charges shall be imposed if the total gross floor area of the additional one or two units exceeds the gross floor area of the existing dwelling unit.

3.7 Notwithstanding section 3.5, development charges shall be imposed if the additional unit has a gross floor area greater than:

- a) in the case of a semi-detached or row dwelling, the gross floor area of the existing dwelling unit; and,
- b) in the case of any other residential building, the gross floor area of the smallest dwelling unit contained in the residential building.

Other Exemptions:

3.8.1 Notwithstanding the provision of this By-law, development charges shall not be imposed with respect to:

- (a) Industrial Buildings;
- (b) Farm buildings;
- (c) Places of Worship; and,
- (d) Commercial Development Charges will be exempt from properties zoned Village Commercial by Zoning By-law 2000-57, as amended, or its successor, in the downtown core areas of the communities of Port McNicoll, Victoria Harbour and Waubaushene as follows:
 - (i) Properties fronting on Talbot Street from Sixth Avenue to First Street, Ney Street and/or Fourth Street north of Talbot to Assiniboia Street in the community of Port McNicoll;
 - (ii) Properties fronting on Albert Street, John Street, Ellen Street, William Street from Cadeau Place to Ellen Street, and/or Richard Street from Albert Street to Ellen Street in the community of Victoria Harbour; and,
 - (iii) Properties fronting on Sturgeon Bay Road east of Ouida Street, Coldwater Road from Pine Street to Willow Street, and/or Pine Street south of Dodge Drive in the community of Waubaushene.
- (e) Charges for the Apartment Units under the Residential Charge By Dwelling Type will be phased in by charging 88% of the charge from February 7, 2019 to February 7, 2021 and 100% of the charge thereafter.

3.8.2 The Treasurer shall rebate the water and/or wastewater service components of the calculated development charge for developments where these services are not available within five hundred feet and servicing plans are not scheduled within five years of the building permit issuance.

Amount of Residential Charges

3.9 The development charges set out in Schedule "B" shall be imposed on residential uses of lands, buildings or structures, including a dwelling unit accessory to a non-residential use and, in the case of a mixed use building or structure, on the residential uses in the mixed use building or structure, according to the type of residential unit, and calculated with respect to each of the services according to the type of residential use.

Amount of Non-Residential Charges

- 3.10 The development charges set out in Schedule “B” to this By-law shall be imposed on non-residential uses of lands, buildings or structures, and, in the case of a mixed use building or structure, on the non-residential uses in the mixed use building or structure, and calculated with respect to each of the services according to the total gross floor area of the non-residential use.

Reduction of Development Charges for Redevelopment

- 3.11.1 Despite any other provisions of this By-law, where, as a result of the redevelopment of land, a building or structure existing on the same land within 5 years prior to the date of payment of development charges in regard to such redevelopment was, or is to be demolished, in whole or in part, or converted from one principal use to another principal use on the same land, in order to facilitate the redevelopment, the development charges otherwise payable with respect to such redevelopment shall be reduced by the following amounts:
- (a) in the case of a residential building or structure, or in the case of a mixed-use building or structure, the residential uses in the mixed-use building or structure, an amount calculated by multiplying the applicable development charge under subsection 3.9 by the number, according to type, of dwelling units that have been or will be demolished or converted to another principal use; and,
 - (b) in the case of a non-residential building or structure or, in the case of mixed- use building or structure, the non-residential uses in the mixed-use building or structure, an amount calculated by multiplying the applicable development charges under subsection 3.10, by the gross floor area that has been or will be demolished or converted to another principal use.
- 3.11.2 Despite subsection 3.11.1, in no case shall a reduction of development charges exceed the amount of the development charges that would otherwise be payable, and no reduction of development charges is available if the existing land use is exempt under this By-law.

Time of Payment of Development Charges

- 3.12 Development charges shall be calculated and payable in full in money or by provision of services as may be agreed upon, or by credit granted by the Act, on the date that the first building permit is issued in relation to a building or structure on land to which a development charge applies, or in a manner or at a time otherwise lawfully agreed upon.
- 3.13 Where development charges apply to land in relation to which a building permit is required, the building permit shall not be issued until the development charges have been paid in full.
- 3.14 Notwithstanding subsection 3.12, the portion of development charges with respect to water services, waste water services and roads and related services shall be calculated and payable with respect to an approval of a plan of subdivision under Section 51 of the Planning Act immediately upon entering into an agreement.
- 3.15 Notwithstanding subsections 3.12, 3.13 and 3.14, an owner may enter into an agreement with the municipality to provide for the payment in full or in part of a development charge before building permit issuance or later than the issuing of a building permit, as agreed, and for the charging of interest by the Township on that part of the development charge paid after it would otherwise have been payable.

4. PAYMENT BY SERVICES

- 4.1 Despite the payment required under subsections 3.9 and 3.10, Council may, by agreement, give a credit towards a development charge in exchange for work that relates to a service to which a development charge relates under this By-law.

5. INDEXING

- 5.1 Development charges imposed pursuant to this By-law shall be adjusted annually on the first day of January without amendment to this By-law, in accordance with the third quarter of the prescribed index in the Act.

6. SCHEDULES

- 6.1 The following schedules shall form part of this By-law:
Schedule "A" - COMPONENTS OF SERVICES DESIGNATED IN SUBSECTION 2.1
Schedule "B" - SCHEDULE OF DEVELOPMENT CHARGES

7. CONFLICTS

- 7.1 Where the Township and an owner or former owner have entered into an agreement with respect to land within the area to which this By-law applies, and a conflict exists between the provisions of this By-law and such agreement, the provisions of the agreement shall prevail to the extent that there is a conflict.
- 7.2 Notwithstanding subsection 7.1, where a development which is the subject of an agreement to which subsection 7.1 applies, is subsequently the subject of one or more of the actions described in subsection 3.4.1, an additional development charge in respect of the development permitted by the action shall be calculated, payable and collected in accordance with the provisions of this By-law if the development has the effect of increasing the need for services, unless such agreement provides otherwise.

8. SEVERABILITY

- 8.1 If, for any reason, any provision of this By-law is held to be invalid, it is hereby declared to be the intention of Council that all the remainder of this By-law shall continue in full force and effect until repealed, re-enacted, amended or modified.

9. REPEAL OF CURRENT BY-LAW

- 9.1 That By-law 2014-01 be and is hereby repealed.

10. DATE BY-LAW IN FORCE

- 10.1 This By-law shall come into force and take effect immediately upon the final reading thereof.

11. DATE BY-LAW EXPIRES

- 11.1 This By-law shall continue in force and effect for a term not to exceed five years from the date of coming into force, unless it is extended by statute, regulation or By-law, or repealed at an earlier date.

**BY-LAW READ A FIRST, SECOND, AND THIRD TIME AND FINALLY PASSED THIS 06th

Dear Joanne,

**Re: Township of Tay
2018 Development Charges (DC) Background Study & By-law
Stakeholder Meeting Summary Report**

We have prepared for inclusion in the Final Development Charges Background Study a Summary Report on the Stakeholder Meeting that was held January 8th at the Township's municipal office.

Please do not hesitate to call if you have any questions.

Respectfully Submitted by,

DFA Infrastructure International Inc.

Derek Ali, MBA, P.Eng.
President

Transmittal Letter

1. INTRODUCTION 3

2. PRESENTATION 3

3. ATTENDANCE..... 3

4. DISCUSSION 3

1 INTRODUCTION

This report summarizes the activities and discussions related to the Stakeholder Meeting held January 8th, 2019.

The primary objectives of the Stakeholder Meeting were to:

- Provide background information on development charges;
- To present information contained in the draft background study and proposed development charge rates; and
- To obtain stakeholder's input on the proposed Municipality's development charges by-law.

A notice of the Stakeholder Meeting was prepared and posted on the Township's website on December 3rd, 2018. A copy of the notice has been appended to this report.

Two separate stakeholder sessions were held on the 8th. The first was from 1 p.m. to 3 p.m., with the second from 7 p.m. to 9 p.m. at the following location:

Municipal Office – Council Chambers
450 Park Road
Victoria Harbour, Ontario
L0K 2A0

2 PRESENTATION

The representative of DFA Infrastructure International Inc. (DFA) gave a presentation at each of the two stakeholder sessions in respect to the draft Development Charges Background Study and proposed By-law. The presentation focused on the requirements of the Development Charges Act when passing a new development charges by-law, the information and assumptions used in calculation of the proposed development charges, and a comparison of the proposed development charges to other municipalities.

3 ATTENDANCE

A total of four members of the public were in attendance at the two stakeholder sessions. Senior Township staff and a representative of DFA were also in attendance. A sign-in sheet was circulated to members of the public. Upon completion of the presentations, members of the public were invited to comment on and discuss the draft development charges background study and proposed by-law. All members of the public commented.

4 DISCUSSION

Other than a general understanding of the process for calculating development charges, the main issue being raised by the stakeholders was the proposed DC rate increases for the apartment classes of residential developed. While the calculated residential rates of the single family and multiple dwelling units saw a slight decline over the current 2019 rates, the calculated rates for apartment units are seeing an increase over the current 2019 rates. It was explained to the stakeholders that the assumptions used regarding density of persons-per-units had changed from the previous study, and that was the reason for the apartment rates increases, while the single family and multiple rates were seeing decreases.

It was requested by some of the stakeholders that consideration be provided for relief from the proposed increases in the calculated apartment rates, with the possibility of grandfathering current apartment developments.

Upon completion of the discussion attendees were informed that a report on the stakeholder meeting would be drafted and included in the background study. Attendees were also informed that the Statutory Public Meeting would be held on January 23rd at 6:30 where they could make a formal presentation to members of Council on their concerns.

TAY TOWNSHIP

Tay Township seeks input on draft Development Charges Background Study and By-law

Posted on Monday December 03, 2018

Tay, Ontario: Today, Tay Township released its draft **Development Charges Background Study and By-law** and is seeking public input on the draft report.

As Tay continues to grow, the Township collects fees from developers to ensure that the cost of providing infrastructure to service new growth is not borne by residents and businesses in the form of higher property taxes. The municipality is required under the Ontario Development Charges Act to update and adopt a new Development Charges Background Study and By-Law at least every five years.

The draft Development Charges Background Study and By-law has been prepared and released for consultation.

Join us at one of two public consultations to learn more and have your say on **Tuesday, January 8** from **1 p.m. to 3 p.m.** and **7 p.m. to 9 p.m.** in the Council Chamber at 450 Park Street in Victoria Harbour. The sessions will begin with a short presentation by the consultant followed by an opportunity to ask questions and provide feedback.

A statutory public meeting is scheduled for **Wednesday, January 23 at 6:30 p.m.** in the Council Chamber.

Following the consultation process, Tay Township will release an updated Development Charges Background Study and By-law for consideration at a Special Council meeting in early February 2019.

The draft Development Charges Background Study and By-law is available at tay.ca. For more information and to submit your comments, please contact Joanne Sanders, Director of Finance / Treasurer, at jsanders@tay.ca or 705-534-7248 x226.

Tay Township is committed to delivering responsive and cost-effective municipal services and infrastructure that provide for the long-term economic, social and environmental well-being of its residents and community.
